Subject: UIC/Aquifer Exemption permitting question

Good Morning David,

I just have a brief permitting questions that I hope you can help me with. Regarding UIC permits and/or Aquifer Exemption applications, does the EPA notify an applicant once an application is received and the EPA determines the application sufficiently complete for reviewing purposes? If so, can you tell me how the applicant is notified? (mail, email, phone)

Thank you for your time and assistance.

Chris Flail
